

Force, mass and acceleration (RP)

Cover the answers. Answer each question out loud or on paper, then check. Tick the ones you know.

QUESTION		ANSWER	✓
1	Investigating how force affects the acceleration of a car: name the independent variable.	Force applied to the car	☐
2	Investigating how force affects the acceleration of a car: name the dependent variable.	Acceleration of the car	☐
3	Investigating how force affects the acceleration of a car: name the control variables.	The total mass and the surface the car travels on	☐
4	The force on a car is doubled. State the effect on its acceleration.	It doubles.	☐
5	Investigating how mass affects the acceleration of a car: name the independent variable.	Mass of the car	☐
6	Investigating how mass affects the acceleration of a car: name the dependent variable.	Acceleration of the car	☐
7	Investigating how mass affects the acceleration of a car: name the control variables.	The force applied and the surface the car travels on	☐
