PREP 1, LESSONS 1–2

Particles and gas pressure

Solids, liquids and gases; changes of state; what causes gas pressure

SCORE / 10

Name _____ Class _____ Due _____

Do Now REMEMBER

From earlier lessons, 1 mark each

1 State the frequency and potential difference of the UK mains electricity supply. [1]

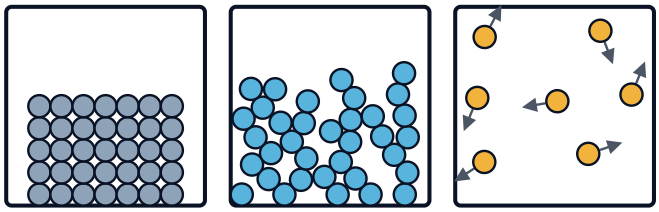

2 State the function of the earth wire in a three-core cable. [1]

3 State the two measurements needed to find the resistance of a component. [1]

Key ideas LESSONS 1–2

Show your working

4 The diagrams show the particles in a solid, a liquid and a gas.

a The diagram that shows a liquid is | A | B | C | [1]

b Describe the arrangement and the motion of the particles in a gas. [2]

5 A 30 g ice cube melts in a sealed bag. The mass of the water is | less than 30 g | 30 g | more than 30 g | [1]

6 A sealed can of gas is heated. Explain, in terms of particles, why the pressure of the gas increases. [3]
