

Momentum

Cover the answers. Answer each question out loud or on paper, then check. Tick the ones you know. Learn the 3 starred (★) questions first.

	QUESTION	ANSWER	✓
1 ★	State the standard unit of momentum.	Kilogram metre per second (kg m/s)	☐
2 ★	State the law of conservation of momentum.	In a closed system, total momentum before an event = total momentum after.	☐
3	State the equation linking momentum, mass and velocity.	momentum = mass × velocity ($p = m v$)	☐
4 ★	State whether momentum is a scalar or a vector quantity.	A vector	☐
5	State the momentum of a stationary object.	Zero	☐
